Education

Bachelor of Technology in Computer Science and Business Systems

2022 – Present

Chennai Institute of Technology

Experience

KaizenSpark

May 2024 – Jul 2024

Web Developer Intern

- Developed fully responsive website using React.js, HTML, JavaScript, and Tailwind CSS, ensuring seamless user experience across devices.
- Collaborated with design team to implement modern UI/UX features, improving site engagement.
- Optimized website performance by minimizing load times and improving code efficiency.

InternPe

Nov 2023 – Dec 2023

Web Developer Intern

- Developed fully responsive website using HTML, CSS, and Tailwind CSS, ensuring seamless user experience across devices.
- Created responsive and visually appealing user interfaces using modern web technologies.

Technical Skills

- Languages:** Java, Python, HTML, CSS, JavaScript
- Frontend:** React.js, Tailwind CSS
- Backend:** Node.js, Express.js
- Database:** SQL, MySQL
- Tools:** Git, Figma, VS Code, Postman API
- Soft Skills:** Communication, Leadership, Problem-Solving, Adaptability

Projects

Expense Tracker

- Developed expense management features including add, view, delete transactions, real-time total calculation, and categorized transaction history.
- Implemented secure RESTful APIs using Prisma ORM with PostgreSQL on Neon Cloud, ensuring reliable and scalable persistent storage.
- Applied best practices in modular code architecture, state management, and API integration for enhanced scalability and maintainability.
- Designed an intuitive dashboard with interactive charts to effectively analyze and customized budget limits.
- Tech Stack:** React.js, Node.js, Express.js, PostgreSQL (Neon Cloud), Prisma ORM, Tailwind CSS

Portfolio Website

- Crafted a portfolio website to showcase projects, skills, and achievements in a structured and visually appealing format.
- Designed a responsive and visually appealing interface using HTML, CSS, JavaScript for seamless cross-device compatibility.
- Added interactive elements to improve user engagement, improve experience, and ensure seamless site navigation.
- Tech Stack:** HTML, Tailwind CSS, JavaScript

Green Landing

- Enhanced user engagement with animations, interactive UI components, and structured sections with modern interface.
- Created visually appealing landing page with full responsiveness for optimal viewing experience on various devices.
- Tech Stack:** HTML, CSS

Certifications

- Amazon AWS Certified Cloud Practitioner**
- Udemy Web Development Certification**

Achievements

- CodeChef:** 1 star (Div 4)
- LeetCode:** Rating 1600
- K Hacks:** Finalist held by Anna University

Volunteering

- Event Organizer, Zorphix Symposium:** Managed and coordinated events at a National Level Technical Symposium, enhancing leadership and teamwork skills.
